## JEFFERSON BANQUET.

Democrats Honor the Memory of the Great Man.

W. J. BRYAN IS GUEST OF HONOR.

Nebraska Orator Encouraged by the Spring Elections.

HON. JOHN LENTZ OF OHIO SPEAKS.

Amid Appropriate Surroundings the One Hundred and Fifty-Fourth Anniversary of the Pioneer Statesman's Birth Is Celebrated on an Elaborate Scale by His Devoted Followers—The Member from the Twelfth Ohio District Responds Elegantly to the Toast "Peace, Commerce and Honest Friendship With All Nations."

Washington, April 14.—The one-hundred and fifty-fourth anniversary of Jefferson's birthday was celebrated at the Metropolitan hotel by a subscription dinner given under the auspices of the National Association of Democratic Clubs.

The first celebration of the anniversary of Jefferson's birthday occurred at the same hostelry, then known as the Indian Queen.

Jackson was the guest of honor and the occasion was made memorable by the presence of Vice President John C. Calhoun and other Democratic leaders of that day.

At the present banquet William J. Bryan of Nebraska, the late Democratic candidate for president, was the guest of honor. Senators, representatives and others conspicuous in the councils of the Democratic party were present.

### BRYAN'S SPEECH.

He Credits Mr. Cleveland With Making the Money Question Prominent.

Mr. Bryan spoke in part as follows:

The Democratic party is strong just in proportion as it proves true to the teachings of its great founder. It is the mission of the Democratic party to crystallize into legislation the principles which he taught. Mr. Cleveland, more than any other person in this nation, is responsible for the prominent position which the money question now occupies.

It was his determination to complete the demonetization of silver and make the gold standard perpetual, that aroused the masses of the United States to active resistance. The struggle for supremacy between the gold standard and bimetallism was recognized as a contest between the money power and the common people.

The explicit declaration in favor of free and unlimited coinage at 16 to 1 without waiting for the aid or consent of any other

we are told that we must increase the revenue of the government by collecting higher tariffs on the goods that have been shut out.

Time was when we boasted that our country should be the refuge and asylum of the oppressed of all nations, of the martyrs of every creed, of the innocent victim of despotic arrogance or superstitious frenzy; here his industry was to be encouraged, his plow respected, his ambition unhampered; with no restraint but those laws which are the same to all, and no distinction but that which his merit may originate. But are these the conditions of our country today?

The votes of the farmers and of the people living in the small towns and villages, which are almost a part of the farm, are the independent votes of the land, but in the past few years, through the false pretenses of the tariff tinkers, immigrants have been brought to this country by the millions, and much of the immigration has been of an entirely different class from that of an earlier day, when men and women came here for the purpose of being free.

Now much of the immigration consists of classes who are descended of the Dingleys into the belief that ample employment at remunerative prices can be found anywhere and everywhere in America. Such immigrants come here to offer their services in competition with American labor in the shop and on the farm; come here to take away from American citizens the opportunity of earning livelihood for themselves and their families; come here to work at wages so low as to destroy the opportunities of realizing the ideals and ambitions of a respectable American family. Hordes of such immigrants take possession of large sections of our great cities, and are dominated politically almost to a man by the corporations that imported them; and the votes of these foreign hordes, naturalized in form but unnaturalized in spirit and intelligence, are today manipulated and controlled by the trade syndicates and trusts who dictate our tariff legislation, as is evidenced by the fact that never yet have the men in favor of high protective tariffs seen fit to put a single clause in any of their tariff bills to prevent the importation of free raw labor, to take away from American citizens the opportunity to find fair places in the factories and the mines. A negro slave was worth from \$500 to \$1,500 years ago. Today the white slave of America could not be sold for \$500, because the \$500 of the captives would not earn \$500 or \$400 of interest annually, while the white slave would be quite sure of not being self-sustaining. If his owner had to go into the market and sell his labor.

It is high time we remembered the spirit and the philosophy not only of Thomas Jefferson, but of Andrew Jackson also, and assert with him that "We should become a little more Americanized, and instead of feeding paupers and laborers of Europe to feed our own." What our farmers and manufacturers need is more commerce in the product of labor and less commerce in labor itself. Instead of bringing foreign ships to our ports, carrying immigrants as ballast, let them bring us goods and wares to be exchanged for the products of our farms and factories.

The manipulators and operators of the syndicates and trusts are obeying directions and instructions of their masters in Europe. The government, bond jobbers and stock manipulators are in collusion with and under direction of their masters in Lombard street.

Had English thought and English aristocracy prevailed, George Washington, John Hancock, Benjamin Franklin and Thomas Jefferson would have been shot down like dogs, and history would have known them only as rebels and traitors.

We Americans cut off from monarchy and the heresies of aristocracy as effectually as this country has cut off from the bigotry of superstition and the cruelty of witchcraft.

It should be our unfaltering determination to proceed with other legislation.

### SPEECH OF HON. J. J. LENTZ.

An Earnest Appeal for Americanism as Educated by Jefferson.

Hon. John J. Lentz, representing the Twelfth Ohio district in congress, and who is prominently mentioned as Democratic candidate for governor of the Buckeye state, spoke on "Peace, Commerce and Honest Friendship With All Nations Entangling Alliances With None," in part as follows:

Peace, commerce and honest friendship are words that imply almost one and the same thing. If we have honest friendship with a nation, we shall certainly be at peace with that nation, and so long as we are at peace with any nation and have honest friendship, just so long are we certain to have commerce with such a nation.

Notwithstanding this economic axiom, there are many Dingleys and Dingleyites in the land who believe, or pretend to believe, otherwise.

It may be the regret of the historian to record the blind bigotry, superstition and witchcraft of New England, or the stupid slavery of the south, but there are other historians who will some day write in tears of regret and remorse the fact that their ancestry were both blind and stupid enough to believe and practice the senseless system of taxing the poor wage earners and the toiling farmers upon every element that they purchased, whether for food or clothing or shelter, and as their condition became more and more miserable, the Dingleys and the Dingleyites preached and prayed for more taxes, more taxes, all the while assuring the people that the only way for an impoverished and despising nation to restore prosperity is to tax itself vigorously.

With the present protests of Germany, France and England against our proposed protective tariff, there is little prospect for either peace, commerce, or honest friendship with other nations, and with all this threatened insult to foreign lands, in one breath we are told we must put up the walls and shut out foreign goods, and thus provide for the manufacture of the same within our own walls. In another breath

we are told to hold separate and apart the North American continents for the experiments of government by the people for the people.

I insist upon it that the mission of America is to promote liberty, and that while it may never be our boast, nor the foundation of any arrogance within us, that we shall be the mistress of the sea, or that the sun shall never set on our possessions, yet it should be, if we believe we are in the right, it should be our ambition to see all the nations permeated with the spirit of liberty, and all the governments teaching and practicing the doctrine of "greatest good to the greatest number," and proclaiming that charity that declares that "an injury to the last of us should be the concern of all."

We, the strongest republic that the world has ever seen, and today powerful enough to cope with any government on the face of the earth, stand idle and impotent, listening to the siren song of the stock gambler and the broker, while brutal Spain perpetrates murder and assassination in Cuba under the disguise of war.

Since liberty has brought us power, it imposes upon us the duty, both religious and moral, to promote the uplifting and building of all humanity.

Mary Seymour Howell.

Mrs. Mary Seymour Howell, who is far from well, made an eloquent speech at the recent county convention of suffrage clubs held at Dansville, N. Y.

The Dansville Advertiser says: "Mrs. Howell's address could not have been

more earnest, more eloquent, more penetrating and convincing had it been her farewell talk on earth, and it seemed to

have something of that impressive quality.

Her hearers can never forget it, nor cease to be influenced by it, for her

whole strength, body and soul, seemed to plead for justice to women."

## MR. MORGAN FINISHES.

Alabama Statesman Concludes His Cuban Speech.

## FINAL VOTE IS NOT TAKEN.

During the Senate Proceedings Mr Cockrell of Missouri Presents a Petition of Indianapolis Conference Without Indorsing It.

Washington April 14—Senator Morgan of Alabama concluded his long speech on the resolution declaring that a state of war exists in Cuba. He did not ask for a vote on the resolution but announced that he hoped to secure a final vote at an early day.

The bankrupt bill was taken up at 3 p.m., Mr. Lindsey of Kentucky defending the measure against criticisms made against it.

In the course of the presentation of memorials Mr. Cockrell of Missouri announced that he held in his hand one of the stereotyped printed petitions from that distinguished Indianapolis conference in which they desire congress to surrender to them the right of legislation. He asked that it be referred to the finance committee with the understanding that he did not endorse it.

Mr. Morgan (Dem., Ala.) then entered upon the fourth day of his speech on the resolution declaring that a state of war exists in Cuba.

The senator asserted that the course of events led to the belief that our government was more in sympathy with this ancient Bourbon dynasty than with our own people. He feared the American people could not be held in check much longer but that they would cross the Gulf of Mexico as the Greeks were crossing the Mediterranean sea to avenge the cruelties which only Turks and Spaniards were capable of inflicting.

Mr. Morgan read numerous letters, including one from the Cuban governor of the province of Oriente, to show the complete establishment of a civil government by the Cubans.

Proceeding Mr. Morgan said Spain, alarmed by the recent vote in the senate, had granted belligerent rights to General Ruiz Rivera.

## AN INDEMNITY

Will Be Recommended for the Families of Murdered Italians.

Washington, April 14—After many months of diplomatic correspondence over the lynching of three Italian citizens at Hahnville, La., Aug. 3 last, the president has decided to recommend to congress an appropriation as indemnity.

The state department has struggled in vain for many months to escape the responsibility for the responsibility for the killing of these men, asserting that the Italians were killed, not because they were Italians, but because they were suspected of murder.

The passage between Secretary Olney and Baron Fava, the Italian ambassador, on these points, is regarded as excellent manifestations of the highest diplomatic skill in argument. When Secretary Olney returned no left the case as a legacy to the incoming administration. He had taken the ground that the killed were not Italian subjects, but the Italian ambassador, in direction of his government firmly asserted its right to protect the men.

When Secretary Sherman came to take up the matter he was obliged to accept the Italian contention as proper and to decide to recommend an allotment for indemnity to the families of the men.

## Address of Populists.

Washington, April 14—An address on the situation and the course that duty points has been issued by a joint caucus of Populist senators and congressmen. The address declares that never in the history of the party has there been such cause for hope on the part to those who are seeking reforms along financial and industrial lines as at the present time. "To the People's party," it is asserted, "is due the credit for the bolt in the Republican party convention at St. Louis and for the revolt in the Democratic party that rescued the Chicago convention from the clutches of the bondholding and banking combine." The address speaks of those politicians who were "unwillingly forced" to accept the People's party principles in the last campaign.

## About Japanese Immigration.

Washington April 14—The Japanese legation has received telegraphic advice, in relation to the recent deportation from the Hawaiian Islands of a number of Japanese immigrants which do not agree entirely in all details with the accounts already published in this country. It appears according to these advices that out of 165 Japanese passengers brought to Honolulu by the steamer *Shinsuiryo*, March 20, voluntary passengers and 140 contract laborers were sent back to Japan. The Hawaiians refused to allow these people to land on the ground that the latter are persons who were not possessed of \$100 a month as provided in the trading law and because the contract laborers did not comply with the law.

## Amendment to Tariff Bill.

Washington April 14—Secretary Olney gave notice of several amendments to the tariff bill. One of these abrogates, after one year, the Hawaiian reciprocity treaty. Another declares trust or combinations for the restraint of trade or enhance the market price of imports or manufactures by two or more persons either one of

them as an importer to be illegal and void, and provides for the punishment of the offense by both fine and imprisonment. A third amendment authorizes the president to suspend by executive order the collection of all duties levied upon an imported article the name product of which is controlled by a trust.

## Elliott Still in Line.

Washington April 14—Senator Fairbanks and Representative Johnson of Indiana introduced at the White House W. H. Elliott of Indiana, who was one of the unsuccessful candidates for the assistant secretaryship of the navy. Mr. Elliott is willing to take some scheme to seize armor plants.

Washington, April 14—Senator Chandler in the introduction of bills authorizes the government to seize the armor plants of the Bethlehem and Carnegie companies. The secretary of the navy is empowered to run the plants until enough armor plate is made for the battleships Alabama Illinois and Wisconsin. The plants are then to be returned to their owners.

## Place is Pre-Empted.

Washington, April 14—Ex-Representative Pickler of North Dakota, who was strongly pressed for commissioner of pensions, was at the White House. Rumor now connects his name with the position of commissioner of Indian affairs, but the Wisconsin delegation, who have been urging W. A. Jones, saw that this place has been pre-empted by the latter.

## No Action Taken.

Washington, April 14—Much embarrassment to the postal authorities has been caused by the failure of congress to pass the appropriation of \$200,000 to defray the expenditures of the international postal congress to be held here next month. The urgency of the appropriation has been pointed out to congress, but no definite action has yet been taken.

## Washington Notes.

The Senate confirmed the appointment of James Boyle of Ohio to be consul at Liverpool.

A cablegram from Panama containing the word "Yellow" conveyed the information that yellow fever had made its appearance at that port.

An agreement has been reached by which the appropriation bills which failed to become laws at the last session will be passed in the Senate.

According to the new policy of the postoffice department a change of residence by a fourth-class postmaster is considered equivalent to a resignation.

Senator Pettigrew made a favorable report on Senator Clarke's amendment to the sundry civil bill abrogating the executive order of Feb. 23, 1896, in apart certain lands in the western states as forest reservations.

## GOLD DEMOCRATS

Decide to Break No More Quorums in Balloting for Senator.

Frankfort, Ky., April 14—The Gold Democrats, in caucus, decided to break no more quorums in the balloting for United States senator. They admit that Hunter is liable to be elected now but they say that the Blackburn men who refuse to support Martin will be responsible for the result. If Hunter is not elected after a few trials they will demand that he retire.

They are determined that if they can not elect a Gold Democrat they will elect a Gold Republican. The grand jury is not ready to report.

The state executive committee of the silver Democracy called a state convention for this city for June 2 for the nomination of a clerk of the court of appeals.

The committee reiterates its approval of the national platform adopted at Chicago, but it is more liberal in the provisions of the call with reference as to who participate in county and state conventions.

## Will Contest the Decision.

Cincinnati, April 14—In executive session the executive board of the Iron Molders' Union of North America passed a resolution to employ legal counsel to contest the decision of the Franklin county (O.) circuit court of March 31, 1894, relieving goods made by convict labor of the obligation imposed by law that such goods be marked or stamped plainly as the product of convict labor when they are put upon the market.

## Brakemen in Session.

Nashville, April 14—The National Association of Air-Brakemen met in the hall of the house of representatives with 125 members present. An address of welcome was delivered by Major J. W. Thomas, president of the Nashville, Chattanooga and St. Louis railway, and President McKee responded in behalf of the association. Several papers were read.

## Another Case!

Constantinople April 14—Another council of ministers is now in progress at the Yildiz Kiosk, and it is expected that it will result in an important decision with respect to the recent incursion upon Turkish territory.

## Remains Transferred.

Indianapolis April 14—On account of a wreck on the Pennsylvania railway it was necessary to transfer the remains of D. W. Voorhees to a big freight train and when they arrived here an hour later the time expected.

## Gamblers on the Carpet.

Columbus, O. The grand jury was instructed by Judge Rugh to investigate Columbus' gamblers.

## Surf Winers.

## SOUTH OF VICKSBURG.

Swift Current Is Attacking the Louisiana Levee.

## RELIEF FOR THE REFUGEES.

Three Thousand Dollars Weekly Will Be Allowed the Local Committee to Take Care of the People About Helena.

Memphis April 14—The river continues to rise south of Vicksburg and the swift current is throwing the waters against the Louisiana levees with enormous force.

A telegram from Tallahatchie reported that the levee in Warren county, Miss., had broken, but the report was premature. The water is washing over the levee at that point, however, and a break may occur at any hour.

Many people have left the city with their most valuable effects and stock. Several weak spots have developed in the southern levee system, and the people in that section are making a heroic struggle to save their farms and other property.

The backwater in the flooded Mississippi delta is about stationary. The river at Memphis continues to fall slowly. At Helena the river is declining at the rate of two-tenths of a foot daily.

The refugees are flocking into Helena by every boat. Lieutenant S. A. Rowan and M. C. Rowley of the United States army and Captain Graham D. Fitch have arrived at Helena on the steamer *Itasca*. A conference between the officers and local relief committee was held so Lieutenant Rowan might secure all the facts regarding the situation there.

At a meeting it was estimated that of the 25,341 people inhabiting the county 7,000 lived in the city, and one-half of the remainder lived in the territory now inundated. Three thousand dollars weekly was the sum decided upon to take care of these people.

## Missouri Rising Again.

St. Joseph, Mo., April 14—The Missouri river at this place is rising again. The railroad tracks down the river are threatened.

## Mr. Stevenson Accepts.

Bloomington, Ills., April 13—Ex-Vice President Stevenson said when questioned about his appointment on the commission for the promotion of an international agreement, "I appreciate the compliment paid to me by the president, and will cheerfully render what assistance I can to accomplish the object of the commission. I am a lame-duck, I regard the restoration of silver to its proper money function as the supreme question in our own country and throughout the world."

## Chief Koari to Be Punished.

London, April 14—Harry De Windt has arrived in London. He has been seriously ill in Paris, the result of exposure and ill treatment at Tchubtech, Bering Straits, which place he reached during his recent attempt to travel by land from New York to Paris. He says the United States government has decided to send the revenue cutter Bear to Oumawanduk in June to punish Chief Koari.

## New Incorporations.

## Secession Was Defeated.

Denver, April 14—A meeting of Colorado wheelmen was held to consider the proposition of secession from the League of American Wheelmen. After a stormy debate secession was defeated and resolutions adopted favoring local option on the question of Sunday racing.

## Not So Bad as Expected.

Chicago, April 14—The annual report of President Perkins to the stockholders and directors of the Chicago Burlington and Quincy though it shows a deficit for the year of \$14,640, is much more favorable than it was thought months ago it could be.

## Irregularity in Elect on.

Wooster, O., April 14—The elect on officers at Shreveport precinct allowed the Democrats to write then ticket on the ballot which had not been certified to the election supervisors. Hence Secretary of State Kinney has ordered a special investigation.

## Paper on Western Canada.

London, April 14—Before the Royal Colonial Institute a paper on Western Canada, prepared by Sir Donald Smith, the Canadian high commissioner, was read by Sir Joseph G. Coomer, his secretary, the high commissioner being unavoidably absent.

## Salt for Damages.

Marysville, O., April 11—Edward Dusay, a rich farmer, is asked to pay \$10,000 to John B. Morris for killing with the latter's wife.

## Birth of Dr. Fox.

Milwaukee April 14—Dr. Will W. Fox, a prominent physician, died of a lingering illness.

## JURORS DRAWN.

The Grand Jury to Meet May 10th: the Petit Jury, May 24th.

The dusty box that contains the names to be drawn as jurors was taken down from the shelf yesterday for sheriff Fisher to turn the wheel while clerk Shappell drew the names of fifteen persons to serve as grand jurors, and sixteen names for persons to serve as petit jurors.

The grand jury will meet on the morning of May 10th, and the petit jury will be ordered to be present on the morning of the 24th of May.

The following are the names of the jurors as drawn:

## GRAND JURORS.

J. B. Douglass, Lima, Sixth ward; S. K. Krauss, Lima, Seventh ward; W. H. Caster, Spencer township; F. H. King, Delphos, First ward; Ed Willower, Lima, Third ward; J. O. Sloan, Spencer township; James McKee, Jackson township; Adam Scharp, Delphos, Second ward; W. W. Eaton, Samuel Burkholder, Bluffton; John Midgush, Lima, Fourth ward; Isaac Burkholder, Marion township; James M. Carter, Lima, Fifth ward; R. D. Hooker, Spencer township; Frank P. Hardin, Perry township.

## PETIT JURORS.

John A. Mohr, Lima, Fourth ward; W. P. Bentley, Richland township; W. H. Hartman, Lima, Fifth ward; W. S. Ritenour, Lima, Seventh ward; O. P. Shoemaker, Bluffton; Martin Dibbling, Lima, Second ward; J. L. Smith, Lima, Fourth ward; Gilford Day, Lima, Seventh ward; N. P. Pangie, Lima, Seventh ward; I. Garretson, Lima, Second ward; Dan B. Miller, Lima, Fourth ward; John Biner, Spencer township; S. S. Motter, Bluffton; J. B. Moore, Lima, Seventh ward; J. D. Ward, Lima, Fourth ward; C. C. White, Auglaize township, east precinct.

## DISEASES OF THE SKIN.

The intense itching and smarting incident to eczema, tetter, asth-rheum, and other diseases of the skin is instantly allayed by applying Chamberlain's Eye and Skin Ointment. Many very bad cases have been permanently cured by it. It is equally efficient for itching piles and a favorite remedy for sore nipples, chapped hands, chilblains, frost bites, and chronic sore eyes. For sale by druggists at 25 cents per box.

Try Dr. Cady's Condition Powders, they are just what a horse needs when in bad condition. Tonic, blood purifier and vermifuge.

## GOING SOUTH.

Order Eastern Star

Will meet this, Wednesday, evening. All members are invited to be present. Mrs. A. S. BOWER, W. M.

Mrs. Samuel Stamm, of Logan, Pa., bore her thirty-four years of suffering with courage and fortitude. Her trouble was rheumatism in the knee. In consequence her limb had become so stiff that she could hardly walk. Mr. Stamm is a well-to-do merchant, and had spared no pains or expense to relieve her, but with little success, until one night when it grew so painful that she could hardly endure it, he persuaded her to try Chamberlain's Pain Balm. The effect was magical. The first application relieved the pain, and its continued use has removed all stiffness and given her the free use of her limb once more. If you have friends who are troubled with rheumatism insist on their giving this remedy a trial. You can do them no greater favor, as it is sure to give prompt relief, and if they are a little patient it will effect a cure. For sale at 25 and 50 cents per bottle by Melville, the druggist, old postoffice corner; C. W. Heister, 68 public square.

## There Is a Difference

These get-rich quick schemes always prove disappointing," remarked Squilligan, who had been reading about the collapse of a New York blind pool.

"Well, that depends," replied Mc-Squilligan.

"How does it depend?"

"It depends on whether you look at them from the standpoint of the people who provide the capital or that of the people who handle it."

## Cured in One Night.

Charles H. Connel, Esq., leading lawyer of York, Pa., says: "Your Balsam Balm cured me of one of the worst colds I ever experienced, in one night. I think it the greatest medicine in the market, and you can use my name any way you like."

## Have Your Books Bound.

The TIMES-DEMOCRAT Book Binding is well equipped for doing all kinds of book binding. Those magazines of yours will make handsome volumes when they are bound. Our prices are right.

## MISSSED A GOOD THING.

BUT FOUND THE CAUSE LAY IN THE KITCHEN.

"A man will be kept out of a good thing by a very small matter sometimes."

"I consider my body my very best friend, as when it is well I can make money, eat, sleep, and enjoy life, while I can do neither of these when I am not in good physical health, therefore I try to use good common sense and keep my body well."

Finding that coffee was most heavy for me, even producing pronounced indigestion at times, I determined to try this Postum Cereal Food Coffee awhile, as I understood from my physician that it was perfectly digestible and was made of the albumen, gluten and phosphates of wheat that nature needs to build in the gray matter with which nerve cells must be filled to maintain health.

Well, the first morning it came on the table it looked like a thin kind of pale coffee and tasted like a mamby-pamby sort of children's drink. I was much disappointed and thoroughly disgusted and went back to hot water and milk. One day, at a friend's, I drank some rich, deep, clear, brown coffee and enjoyed it greatly, passing up for a second cup. When I was told it was Postum I Cereal Food Coffee, you can depend I quickly saw I had been kept out of a good thing for some weeks, simply because the first trial had been ruined in the kitchen. I had some prepared strictly according to directions (and that is easy) and now I have my Food Coffee every morning and evening, and I am getting steadier and sturdier every day of my life. Take an old man's advice and don't let a cook's single failure keep you out of a good thing."

There are many weak imitations of Postum C

## CHOSEN FOR VICTORY.

Continued from Eighth Page.

J. Ackerman placed in nomination the name of W. E. Grubb of the Fourth ward. Simon Spellacy nominated J. W. Laudick, of the Fourth ward. H. P. Williamson nominated Jacob L. Shook, of Auglaize township. A. M. Bushey nominated T. W. Miller, of Sugar Creek township.

## THE BALLOTS.

First ballot: Bogart, 64; States, 48; Grubb, 23; Laudick, 57; Shook, 34; Miller, 24.

Second: Bogart, 73; States, 57; Grubb, 16; Laudick, 58; Shook, 29; Miller, 21.

Third: Bogart, 83; States, 52; Grubb, 9; Laudick, 61; Shook, 25; Miller, 22.

Fourth: Bogart, 89; States, 54; Grubb, 7; Laudick, 57; Shook, 28; Miller, 17.

Fifth: Bogart, 99; States, 51; Grubb, 4; Laudick, 57; Shook, 30; Miller, 12.

Sixth: Bogart, 111; States, 52; Grubb, 5; Laudick, 51; Shook, 22; Miller, 12.

Seventh: Bogart, 111; States, 47; Grubb, 1; Laudick, 44; Shook, 21.

A motion to suspend the rules of the convention and let the chairman of each delegation announce the votes of their delegations respectively was defeated, and after the six candidates had made their addresses and pledges to the convention the delegates proceeded to prepare their ballots in the usual manner.

The second ballot resulted in a gain of 9 votes each for Bogart and States. Mr. Grubb lost 7, Mr. Laudick gained 1, Mr. Shook lost 5 and Mr. Miller lost 3. On the third ballot Bogart gained 10 votes, running his tally up to 83, with a slight loss to three other candidates, and making Mr. Laudick second in the contest, with 61 to Mr. States' 52 votes. By the time the sixth ballot was counted a change had been made, Bluffton precinct casting 18 votes solid for Bogart, making his total 111 and bringing Mr. States into second place with 52 and Laudick a close third with 51 votes. On this ballot Mr. Shook's vote was reduced to 30, Mr. Miller's to 12 and Mr. Grubb's to 4.

The seventh ballot was decisive, Mr. Bogart receiving 141, while 129 voters were all that were necessary to a choice. As soon as the result was announced, Mr. States moved to make the nomination unanimous. The motion was seconded by Mr. Shook and hundreds of others and was carried without a dissenting voice. Mr. Bogart mounted the platform and expressed his sincere thanks to the convention, and was heartily applauded again.

GEORGE KANAWL FOR COMMISSIONER

The naming of candidates for County Commissioner was next.

J. Warren Kilgore, of Monroe township, nominated Daniel Harpster, of that township.

T. W. Bodell, also of Monroe township, nominated Peter Lora, of the same township.

W. H. Cunningham placed in nomination the name of George Kanawl, of Ottawa township.

Dr. Jones, of Sugar Creek township, nominated Evan R. Jones.

There being no further nominations, the candidates each in turn addressed the convention, pledging themselves in accordance with the resolutions adopted, after which the first ballot was called for.

## THE BALLOTS.

First: Kanawl, 86; Lora, 48; Harpster, 50; Jones, 73.

Second: Kanawl, 95; Lora, 40; Harpster, 32; Jones, 87.

Third: Kanawl, 121; Lora, 30; Harpster, 17; Jones, 88.

Fourth: Kanawl, 142; Lora, 20; Harpster, 8; Jones, 85.

J. C. CRONLEY FOR SURVEYOR.

Chairman Prophet announced the naming of candidates for the office of County Surveyor as being the next matter before the convention.

Daniel Daniels, of the city, nominated J. C. Cronley, also of this city.

William Richardson nominated John Keith, of Spencer township.

These were the only candidates, and after they had made their pledges to the convention the delegates proceeded with the preparations of their ballots, which resulted as follows:

## THE BALLOT.

First: Cronley, 167; Keith, 88.

The one ballot being sufficient to decide this contest, Mr. Cronley, the nominee, briefly expressed his appreciation of the honor, and assured the convention that if elected he would endeavor to execute the duties of the office to the best of his ability. He was applauded with enthusiasm.

DR. E. G. BURTON FOR CORONER

Chairman Prophet announced the selection of a candidate for the office of Coroner next in order.

W. T. Copeland nominated Dr. E. G. Burton, of this city.

H. P. Williamson nominated Dr. S. S. Hermann.

The candidates in turn made their pledges to the convention, and the delegates passed in their ballots, which aggregated as follows:

## THE BALLOT.

First: Dr. Burton, 137; Dr. Hermann, 118. Dr. Burton, the nominee, was excused from any further speech making on account of the lateness of the hour.

Chairman Prophet called for nominations for candidates for the office of County Infirmary Director.

O. H. Hubbard, of the Third ward,

"HOW TO SAVE TIME  
ON DRILLING WELLS!"

You must know there is a big loss of Power from your belts slipping. Well, we can stop that and save you. If you will use GREEN SEAL BELT DRESSING on your belts.

Read what those drillers say:

INDIANAPOLIS, Ind., Feb. 20, '97. Your Dressing is just the thing; it covers wear on machinery, and with it we can run a belt that would tear in two if we had to make it tight enough to hold without the Dressing. It is not a good thing for belt manufacturers, but it is a "DAISY" for the users of belts. Besides we have no slipping now.

## YESTERDAY'S CONVENTION.

The unanimous expression of every person who looked in upon yesterday's gathering of the Democracy in Music Hall is that it was an ideal convention. Not only was it a large convention numerically, but it was composed of a body of delegates the peers of any people on earth. It was an orderly, sober, earnest, dignified crowd of people who had gathered together to place in nomination a county ticket—or rather to select a roster of county officers—for the judgment of the delegates in selecting the nominees will be ratified by the

## WORLD'S COTTON SUPPLY.

The United States Produces More Than Half of It.

According to the best sources of information, the world's supply of cotton in 1896 aggregated 18,200,000 bales, or 7,280,000,000 pounds. Of this immense crop 10,300,000 bales were produced in the United States, 2,600,000 in India and 634,000 in Egypt. The remaining bales were produced in the various parts of the globe. In different countries different standards of measurement obtain, and in no two countries is the weight of a bale of cotton exactly the same.

The American bale averages 450 pounds, the Indian bale 400 pounds and the Egyptian bale 717 pounds. Some idea of the vast extent of the world's cotton area may be gathered from the fact that in the United States alone it covers over 20,000,000 acres. In 1896 the world's total output of cotton aggregated only 636,000,000 pounds, or 11 times less than in 1895.

Within a single decade, however, the product almost doubled, amounting in 1880 to 1,192,000,000 pounds. Since then the world's product has been as follows: 2,391,000,000 pounds in 1890, 4,039,000,000 pounds in 1890 and 7,280,000,000 in 1895.

From these figures some idea of the vast importance of the cotton plants as a factor in the world's growth and progress may be obtained.

## KILLS PLAGUE GERMS.

Serum From the Blood of a Horse Does the Work.

Dr. Alvah H. Doty, health officer of the port, assisted by Dr. T. D. Fitzpatrick, has recently been trying to discover an antitoxine for the bubonic plague, which has been making ravages in India. He made the following report on the subject to President Wilson of the health board:

"During the early part of February a temporary laboratory was established at Sydenham Island for the purpose of studying the bubonic plague bacilli, and, if possible, to produce a plague antitoxine. Work was begun on Feb. 17, when animals were procured for the purpose.

"On Feb. 26 a horse was inoculated with a culture of plague bacilli. This was repeated on March 4 and 9. In order to determine how early the serum might have acquired antitoxic qualities, about a pint of blood was drawn from the horse on March 15 for experimental purposes. From this one-half a pint of serum was secured.

"About one cubic centimeter was injected into white mice. After 13 hours these were inoculated with a culture of the plague bacilli. These remained alive. Several into which serum was not injected died, showing the efficiency of the serum in the cases of those that lived."—New York Tribune.

## WASHINGTON MONUMENT.

A New One to Be Unveiled in Philadelphia by the President.

The unveiling of the Washington monument, erected at Philadelphia by the Society of the Cincinnati, will take place on May 15, and the ceremonies with which the unveiling will be commemorated will be in keeping with the importance of the occasion. President McKinley and his cabinet have been invited, and it is expected that they will attend. Distinguished military, naval and civil personages are also expected. Governor Hastings and Mayor Warwick of Philadelphia and the civic authorities have also promised to be present and to participate in the ceremonies.

The programme for the day, for which the State Society of the Cincinnati of Pennsylvania is making arrangements, provides for a military display in the afternoon and a banquet in the evening.

An unusually large turnout of the national guard and the regular army is expected to give prominence to the military idea of the monument, in keeping with the traditions of Washington, the great commander of the armies of the Revolution. The parade will move to the monument. President McKinley will be there and will unveil the statue, and he will then review the troops.—Philadelphia Press.

## American Scholarships at Rome.

The managing committee of the American School of Classical Studies in Rome will offer for the year 1897-8 three fellowships, as follows: A fellowship of \$600, established by the managing committee; a fellowship of \$600, given by the Archaeological Institute of America, and a fellowship of \$500 for the study of Christian archaeology, contributed by friends of the school. The holders of these fellowships will be enrolled as regular members of the school for the full school year of ten months, beginning Oct. 15, 1897.

## The Pitching of Miles Standish.

[Of the New York club.] Standish, 'tis said, long ago cast sheep's eyes with zeal on the Giants—Never he'd come to the scratch, because he was timid and bashful. Said he to Rustie the Great, 'Go warble my suit to Priscilla.' Rustie to Standish replied, 'Go speak for yourself, Mr. Standish.' Rustie remains in the cold. Miles Standish has won his Priscilla. Presently he stands in the box like Ajax defying the lightning, hurling the ball on the curve to rattle the slugger from Sluggerville. Into red ribbons he cuts his features and crushes his kneecaps.

Even as the fierce catamount flies downward a corner of hunger, grabbing the mellow spring hen and gulping it down while it's crowing. Yearning for more and more, with molars agape and teeth a-bared, So does Miles Standish sweep down and gather the fowls on the diamond.

Great is the glory of Miles. His star in the heavens is shining. Miles the Grand Standish he's called, the Mayflower pitcher from Plymouth. Justly the Giants feel proud and shout like the bounding Comanches.

Triumph is ours. Through Miles the peach of the box of the diamond.

—R. K. Munkittrick in New York Journal.

## Health Hints.

## Truth Tritely Told Without Varnish or Word Painting.

"Stomach deranged, system deranged." Physicians affirm it, facts prove it. The sufferer from stomach-ache trouble proves the foregoing statement. The stomach is the mill that grinds the food that sustains the body. The slightest ailment interferes with its workings and all becomes wrong. It's the immediate ailment that one must guard against. The most common forms of stomach troubles are wind on the stomach, indigestion, colic, sour stomach, etc. Lightning Hot Drops is a remedy that immediately and absolutely affords relief, and in every case effects a permanent and lasting cure. Where Lightning Hot Drops is found, stomach troubles cease to exist. It has cured thousands of obstinate and unyielding cases, and it will cure others. It has never, in any instance, failed. Lightning Hot Drops stands to day without a peer, a priceless remedy for sufferers from all stomach troubles. It is put up and sold in 25 and 50 cent sizes.

## Permission Unnecessary.

"The Colorado legislature has passed a law permitting women to join the militia," remarked Mr. Snaggs.

"I didn't know that a legislative enactment was necessary before women could fight," replied Mr. Henbeck.

## A Never-die.

The "life-time" of Dr. Bull's Cough Syrup will never draw to a close. When a mother once uses it, she continues its use right along; because, she found, for curing cough, cold, croup and whooping-cough Dr. Bull's Cough Syrup unequalled by any other similar medicine. "I have used Dr. Bull's Cough Syrup, for ten or fifteen years in the family, for coughs and throat troubles, for colds, and have found no superior article." Mrs. D. T. Clarke, 163 Congress St., Cleveland, O. Dr. Bull's Cough Syrup can be had every where for 25 cents. Dealers will say they have something else "just as good or better," because they want to make more profit. Don't be "taken in." Dr. Bull's Cough Syrup is the best.

## EVE ETERNALLY CONFUSED.

An Ohio Picture of Human Nature With Worldwide Point.

As a Cedar motor and trailer approached Wilson avenue recently a woman was noticed dodging about the middle of the street. She was evidently hesitating as to which way to go, but finally crossed to the south track and stood there.

"Cross over to the other side!" roared a group of men on the corner.

"Look out for the car!" screamed a woman on the sidewalk.

The motorman clanged his bell and shouted, and the woman dodged out of harm's way. Then, as the train slowed down, she trotted alongside of the trailer.

"Here, where are you?" shouted the conductor.

In answer to the appeal the woman suddenly appeared around the rear of the trailer and put one foot on the step. Then she changed her mind and trotted to the front end of the car. Here she climbed up and came in the front door. The conductor snapped the bell, and the train started suddenly, tumbling the newcomer on to a fat man. As she straightened up she said:

"This car is going to Fairmount street, isn't it?"

"No, ma'am," replied the conductor, "it's going right the other way."

"There, I just thought it was!" cried the woman. "But you all yelled at me so that I got confused. I don't want to go on this car. Let me off."

So the conductor let her off at the next stopping place, and the last the passengers saw of her she was standing on the wrong side of the street waiting for an eastward bound car.—Cleveland Plain Dealer.

Hood's Sarsaparilla is known to be an honest medicine, and it actually cures when all others fail. Take it now.

## Not Particular.

"I suppose," she said acidly, "that you would turn up your nose at cold victuals."

"No, ma'am," replied Meandering Mike. "You'd be surprised to see how good natured I'd take it if you was to offer me a Roman punch or champagne frappe."—Washington Star.

## HER IDEA OF LAW.

A Woman Gives a Learned Judge Some Points on His Business.

An indictment against Frank S. Noon of New York for larceny was dismissed by Judge Cowing recently, who said, in dismissing the case, that he should never have been indicted. Noon and Frank A. Pratt were partners in the chicken raising business on Staten Island. On Jan. 20, 1896, Mrs. Pratt gave Noon \$250 to deposit in bank, Pratt being indebted to the firm for that amount.

Noon deposited \$125 of the amount and spent the remainder as a member of the firm. Mrs. Pratt alleged that this was not right. The grand jury indicted, and when Judge Cowing heard Mrs. Pratt's testimony he dismissed the case. Mrs. Pratt is a very businesslike woman, and before leaving the stand took exception to the judge's remarks. Judge Cowing said:

"The facts do not constitute a larceny, and the defendant should never have been indicted."

"Oh, yes they do," said Mrs. Pratt, while Judge Cowing looked at her good naturedly.

"If the money," she continued, "had been deposited in the bank, he might have drawn it out as a member of the firm, but," and she waved her hand, "he was only my messenger to the bank, and he stole the money. That is the law."

"Madame," responded the judge, keeping his dignity, "I am here to interpret the law. I have told you that there was no larceny. This is a civil action."

"Yes, judge, I know you are a lawyer," replied Mrs. Pratt, "but perhaps you have made a mistake." Then, changing her tone to a semisarcastic one, she added. "The grand jury does not agree with you," and, satisfied that she had scored hard on his honor, she stood still, while the persons in the courtroom laughed.

"Oh, I am used to that," said the judge. "The grand jury and myself very frequently disagree," and Mrs. Pratt looked mad as she left the courtroom.—New York Journal.

## BLOSSOMS BY STEAM.

Tulips That Were "Forced" by Hot Pipes That Lay Near Them.

Spring seems to have arrived in spite of the chilly wind in Central park, New York, if the tulip bed on the northeast side of the arsenal can only have been trusted as a herald of the new season. That tulip bed is a gay deceiver. All over the bed the spearhead leaves of the plant are showing. Just at the corner of the old building there is a bright red flower, and several partly opened buds are clustered near it.

That is what makes it look like spring in that neighborhood. But it is noticeable that the bed on the other side of the building is not so far advanced. The reason why this particular bed could make such a brave show was that a lot of steam pipes, connecting the restaurant house just across the asphalt walk with the main building, lies just about two feet below the surface of the ground. The heat from these pipes "forced" the tulips, as the gardeners say, and gave them an immense advantage over the less favored tulips that were doing their own growing all by themselves around the corner of the building.

## Will Grow Bamboo.

Experiments in Florida and Louisiana have shown that bamboo will grow in those states almost as well as in the hotter countries. Around Fort Myers there are bamboos that have attained to a height of 50 or 60 feet. They are of a variety which usually grows to about 70 feet in India. In Orange county there is one clump of bamboos, said to be only 10 years old, in which the stalks have attained to the height of 65 feet, averaging 12 inches in circumference. There are 80 stalks in the clump. This particular clump is of a variety from Bengal, where the wood is used for building purposes and for light spars for vessels.

## HERE AND THERE.

Portland, Me., claims a cat able to say "papa" and "mamma."

There are nearly 30,000 trees on a 600 acre crab apple farm, said to be the largest in the world, near Leavenworth, Kan.

An accidental firing of an artesian well at Hempstead, Tex., disclosed the fact that the water had tapped a vein of natural gas.

At Seabago, Me., is a collection of 240 cents, bearing date from 1800 to 1839, which a resident found buried on his farm many years ago.

An Auburn (Me.) man has devised a cook stove on tracks and has laid a track on which to move it between the summer and winter kitchens.

Two bites into an apple picked up in a store cost a resident of Portland, Me., three front teeth. He concluded that that must be the kind of apple from which hard cider is made.

In the neighborhood of Bismarck, N. D., farming operations are likely to be retarded this spring, the winter, including the first part of March, having been the most severe in 15 years.

Short weight in a carload of coal at the Pratt City (Ala.) mines led to the discovery that a negro convict had concealed himself in the car, but he escaped after a收 of the mine before capture was possible.

A third shipment of jute from Calcutta by steam to Galveston is to be made next month, the railroads having made the rail rates from Galveston to St. Louis the same as from New York to St. Louis and so made it feasible to ship via the gulf port.

DR. E. S. BURNHAM: I beg by this note to return to you my sincere thanks and grateful acknowledgement for the various benefits of SAN JAK, which you were kind and generous enough to send to me during my late illness, of inflammation of the bladder.

SAN JAK possesses wonderful properties, its soothing effect upon inflamed mucous surfaces, I indeed remarkable, it won my confidence after a few doses, and deepened my faith and strengthened my opinion of its transcendent merits.

I found relief from the keen and inexpressible anguish caused by the tenacious cystic, the most painful and disagreeable feature of bladder troubles.

Your SAN JAK should be in every drug store in this country, and its wonderful properties and curative powers should be known to every physician in this grand Republic. Another feature in SAN JAK is the agreeable and pleasant taste, very much like Angels wine. When one suffers for weeks and swallows infusions and fluid extracts hourly which are nauseous, repulsive and abominable to take, he can turn with joy, gratitude, and smiling welcome to SAN JAK as a messenger of relief, and a pleasant elixir to have within call.

and Tuesday, April 19th and 20th, is  
desirous of meeting as many singers  
in the Y. M. C. A. hall at 7:30 o'clock  
this evening, for practice, as possible.  
The city should have a pride in fur-  
nishing good music for the occasion  
and for the benefit of the visitors.  
Two anthems will be practiced this  
evening.Advice is cheap. The only  
cheaper thing is Stolzen-  
bach's goods. Come and see  
them.

votes for Disman and Manges, re-  
spectively.

## MADE IT UNANIMOUS.

Amid a thunder of applause chair-  
man Prophet declared Mr. Adkins  
the nominee. A motion that the  
nomination be made unanimous was  
promptly made and carried, with tre-  
mendous enthusiasm. Mr. Adkins  
was lifted bodily to the rostrum, and  
in a brief but eloquent address he  
thanked the convention for the honor.  
"I know full well," said Mr. Adkins,  
"that the duties that I will assume  
when elected to the office of represen-  
tative from Allen county—and I feel  
sure that I shall be elected—will be  
hard and important, but I assure you,  
gentlemen, that I shall perform  
those duties in a manner that will  
make you feel that your votes have  
not been wasted. I will do all in my  
power to make you proud of your rep-  
resentative in the state legislature."  
He concluded his remarks in a  
storm of applause, and, upon motion,  
the convention adjourned until 8

A. G. LUTZ FOR TREASURER.

Last night's session was called to  
order at 8.10 o'clock by vice-chairman  
J. F. Lindemann, who announced  
that the selection of the candidate for  
the office of county treasurer was  
next in order.O. A. Lutz, the present able incum-  
bent of the office was nominated by  
M. L. Becker, and there being no op-  
position to Mr. Lutz being elected  
to a second term, a motion to elect  
"the bestest man" by acclamation  
was carried, by a rousing unani-  
mous vote.Mr. Lutz was called to the stand  
during continued applause. He  
briefly thanked the convention for  
his unanimous nomination and as-  
sured the delegates, together with  
all the taxpayers of Allen county,  
that he would execute the duties of  
the office of county treasurer, as he  
had heretofore, in a manner worthy  
of the office. He pledged himself to  
the platform adopted at the Chicago  
convention and affirmed at this con-  
vention, and was again applauded.

BOGART FOR SHERIFF.

The chair announced that nomina-  
tions for the office of sheriff was next  
in order.O. W. Westbay, of Monroe town-  
ship, placed in nomination the name  
of E. A. Bogart, of the township  
mentioned.L. M. Baker nominated J. A.  
States, also of Monroe township.

## GAS EXPLOSION.

Geo. Wood Injured at Jones's Hard-  
ware Store To-Day.Was Passing a Gasoline Barrel with a  
Lantern When Gas from the Barrel  
Became Ignited.About 9 o'clock this morning con-  
siderable excitement was created on  
the street in the main business por-  
tion of the city by the report of an  
explosion which occurred at Jones &  
Son's hardware store, on the west  
side of the public square.George Wood, a clerk employed at  
the store, had been in the basement  
with a lighted lantern. He left the  
basement and started to ascend the  
stairway leading to the sidewalk and  
was about to pass a supposed-to-be  
empty gasoline barrel when the ex-  
plosion occurred and he was thrown  
into a corner, against the stone wall,  
with considerable force.The gasoline barrel was tapped by  
the boring of a hole through the bung  
last night and the liquid was drawn  
out, but a large amount of gas which  
had generated and accumulated in-  
side the barrel ignited from the  
lantern and the explosion followed  
instantly. The head was blown off  
the barrel, and when Tom Jones, the  
junior member of the firm, reached  
the scene, the demolished lantern  
was inside the barrel, from which  
flames were vigorously gaining  
headway. He threw the barrel into  
the street, and then discovered Wood  
who was just recovering from the  
shock sufficiently to realize what had  
occurred. His face and forehead  
were severely scorched and he was  
slightly bruised, but not seriously  
injured.

## MORE CONFIDENCE.

The C. & E. Night Yard Force  
Enjoys Plenty of It.

## REDUCED TO HALF TIME.

The Order going into Effect last Night—  
Lima Northern Soon to Have  
Through Trains Running  
into Detroit.The employees of the C. & E. yards  
at this place got another dose  
of "confidence" last night. Not-  
withstanding the fact that the  
force in these yards was cut down  
to what was supposed to be the low-  
est notch a few weeks ago, the only  
remaining night crew has been  
reduced to half time, the order  
going into effect last night.  
The crew now goes to work in the  
evening and goes off duty at mid-  
night.One member of the night crew,  
who became a citizen of Lima several  
years ago, had just negotiated the  
purchase of a home in the city, and  
by reason of his salary being reduced  
one-half by this new era of prosper-  
ity he was to-day compelled to  
cancel the contract.

## TWO VESTIBULE TRAINS.

The extension of the Lima North-  
ern from Adrian is being rapidly com-  
pleted. Within a very short time  
the bed will be built, rails laid to  
Bitton, from which place Lima  
Northern trains will run into Detroit  
over the Wabash without change of  
engine or cars. A person can board  
the train in Lima, present a ticket,  
and be carried through to Detroit.  
The Lima Northern people expect to  
offer many inducements to visitors to  
Detroit and points on the lakes, and  
special efforts will be made to accom-  
modate Sunday passengers. Trains  
will be run through from Lima in  
four hours, leaving here early in the  
morning, and, returning, will leave  
Detroit late in the evening.The company has contracted with  
the Ohio Falls Car Co. for six vesti-  
bule cars, consisting of two combina-  
tion cars, two coaches and two  
chair cars. They will be used on two  
fast trains to run between Lima and  
Detroit. The company has also con-  
tracted with the Baldwin Locomotive  
Works to furnish four high-class  
engines to be used in the passenger  
service.

## RAILROAD CAR FOR THE PRESIDENT.

The railroad Car Journal of New  
York City has originated a project  
to build a private car for the use of  
the President of the United States,  
from material and appliances con-  
tributed by the car-building and affil-  
iated industries. The designs and  
specifications are being prepared  
under the supervision of a committee  
of twenty-five master car builders  
and superintendents of motive power.  
The projected car, it is said, will be  
a complete exposition of the art of  
car building, demonstrating to the  
world the surpassing excellence of  
this industry in the United States  
and it is to be presented to the nation  
as a tribute from the car building  
industry, for the personal and offi-  
cial use of the successive presidents  
of the United States.

## DISCHARGES TRAIN PORTERS.

The Fort Wayne road, as well as  
the Panhandle, has dispensed with  
the services of colored porters on all  
their through fast trains running  
east or west, the only exception be-  
ing the New York and Chicago lim-  
ited, on which the porters are still  
retained.

## AN INSPECTION TRAIN.

Superintendents Moorehead and  
Reynolds, of the C. & E., left Chica-  
go this morning on a special train to  
make an inspection of the eastern and  
western divisions of the road.The special will arrive here this  
evening.
